

Hello Full-time Connect Faculty,

Please review Dr. Pearson's email below confirming your Summer teaching load responsibility. Courses taught beyond this required load will be paid accordingly. The deans and I will work with you to assure we are in compliance for this requirement and paid summer teaching opportunities. Thanks for your patience in providing you this information and clarification.

Zena

(Deans, please share accordingly with your faculty. I'm not able to determine if this email group is updated.)

Subject: Summer 1 hours update

Hi Drs. Morales and Jackson,

This is a brief email to summarize the clarification regarding number of SCH required for the summer session. The faculty are contracted an extra 22 days which includes the semester dates, prep and grades due date. The full time workload equivalent would be 3-4.5 hours depending. Thus the requirement is a minimum of 1 course that falls between this range. If needed, I can send a separate more detailed communication if you feel there needs to be additional context.

Best,
Shelley
